Guiding Principles

Drive Excellence
Build appropriate environments to support academic and healthcare programs
To ensure sustained, long-term success in the competitive world of higher education, the University must elevate its physical facilities and environments to match the quality of its programs.

Enhance Identity
Create a welcoming setting that encourages people to linger
To build community and strengthen UIC's identity and pride of place, the University must focus on creating a collegiate setting with places and spaces that are warm, welcoming and inviting.

Our Campus is Chicago
Connect people and the campus to the city
To fully leverage UIC's location within a premier, global city the University must maximize and enhance physical connections between its campus and the city.

Transform UIC
Leverage campus heritage and change the physical paradigm to appeal to all
To become a lively, modern, urban campus that serves the needs of all stakeholders, the University must celebrate its unique architectural heritage while also embracing change.

Enhanced Campus Portals
Engaging the city with active, mixed-use, and pedestrian-friendly streets

Health Sciences Greenway
Establishing a primary promenade and creating a new collegiate quad for West Campus

A Campus for All Seasons
Transforming the Central Quad into a vibrant focal point for campus life throughout the year

UIC Master Plan Update:
2018 Implementation Plan
Priority Projects

Near Term
